

Home Boarding Policy

Home boarding is available to approved dogs only and is subject to suitability and availability.

- Dogs spend each day enjoying daycare before heading home with us for an overnight stay in a family environment.
- Not all dogs are eligible. Home boarding must be approved by our team before booking, and all dogs must have successfully completed a trial daycare day.
- We may require a **trial home boarding stay** before accepting longer home boarding bookings.
- Dogs that react to or are uncomfortable around children are **not eligible** for home boarding.
- If your dog continually barks throughout the night, they will be **transferred to our boarding facility for the remainder of their stay. No refunds will be provided.**
- If your dog repeatedly wees or poos inside the home, they will be **transferred to our boarding facility for the remainder of their stay. No refunds will be provided.**
- Owners are responsible for the cost of repairing or replacing any furniture or property damaged by their dog during their home boarding stay.
- Dogs must be up to date with C5 vaccinations and be friendly with people and other dogs.

Please note: Our home boarding dogs are not crated at night. They stay inside our home, either relaxing in the lounge room downstairs or sleeping upstairs in the bedroom with us, depending on what suits them best. If a dog repeatedly wees or poos upstairs, they may be moved to sleep downstairs. If they continue toileting inside or bark excessively throughout the night, they will be transferred to our boarding facility for the remainder of their stay. This ensures the comfort and wellbeing of our family, neighbours, and all dogs in our care. No refunds will be provided if a transfer is required.
