

Pup Passport Participation Waiver

Please read before participating in Pup Passport.

Pup Passport activities take place in public environments including parks, walking tracks, beaches, shopping areas, cafes, retail areas and dog parks. I understand that activities with dogs in public environments involve risks that cannot be completely eliminated, including interactions with dogs, people, children, wildlife, traffic, bicycles, unfamiliar environments, uneven or slippery surfaces, weather and unexpected events.

I understand and agree that

- My dog remains under my supervision and control at all times.
- I am responsible for ensuring my dog's collar, harness, lead and other equipment are secure, appropriately fitted and suitable for the activity.
- My dog will remain on lead during structured sessions unless the activity is specifically identified as an off lead activity.
- I am responsible for deciding whether I am physically able to safely handle and control my dog.
- I will tell My Pet Tutor about any known health or behavioural concerns, or relevant changes, that may affect safe participation.
- I will follow reasonable safety instructions provided by My Pet Tutor during the session.
- I will not give treats or food to another participant's dog.
- My Pet Tutor may ask me to increase distance, modify an activity or discontinue participation if there are concerns for the safety or welfare of my dog, myself, another participant or the public.

Dog to dog interaction

I understand that structured Pup Passport walks aim to have no dog to dog contact. I will assume that other dogs do not want to interact with my dog unless specifically advised otherwise and will maintain appropriate space between dogs.

Optional off lead activities

Some adventures may include optional off lead activity after the structured session and some of these areas may be unfenced. Participation is completely optional.

I am responsible for deciding whether off lead activity is appropriate for my dog, including their recall, behaviour, health and the environment at the time. **Any decision to allow my dog off lead is made at my own risk.**

I understand that public dog parks and off lead areas may contain dogs and people who are not associated with My Pet Tutor and whose behaviour cannot be controlled or predicted.

Acknowledgement

By choosing to participate, I acknowledge the ordinary risks associated with dog training and activities in public environments and agree to take reasonable responsibility for myself and my dog.

I understand that My Pet Tutor will take reasonable care when conducting sessions but cannot control the actions of other dogs, members of the public, wildlife or other circumstances outside its reasonable control.

This waiver records the participant's acknowledgement of ordinary activity risks and does not exclude rights or guarantees that cannot lawfully be excluded.
